Serial No.10/724,723

Group Art Unit: 3653

Confirmation No.:2211

Filed:December 2, 2003

Examiner: Bollinger, David H.

For: PICKUP ERROR-SENSING APPARATUS OF IMAGE FORMING APPARATUS AND
METHOD THEREFOR

RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

This is responsive to the Office Action mailed February 1, 2005 and having a shortened period for response set to expire on March 1, 2005, the following remarks are provided.

I. Provisional Election of Claims Pursuant to 37 CFR §1.142

Applicants provisionally elect Group I, claims 1-9 and 16-19 in response to the preliminary restriction requirement set forth in the Office Action.

II. Applicants Traverse the Requirement

Insofar as Groups II and III are concerned, it is believed that claims 10-15 are so closely related to elected claims 1-9 and 16-19 that they should remain in the same application. The elected claims 1-9 and 16-19 are directed to a pickup error-sensing apparatus for an image forming apparatus. Claims 10-12 are drawn to a pickup error-sensing method for an image forming apparatus, and claims 13-15 are drawn to a computer-readable medium encoded with processing instructions implementing a pickup error sensing method for an image forming apparatus.

MPEP §803 sets forth that "if the search and examination of an entire application can be made without a serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions." Applicants submit that the Examiner

would find references for the contended "combination and subcombination" in the same field of technology. It is believed, moreover, that evaluation of all sets of claims would not provide an undue burden upon the Examiner at this time in comparison with the additional expense and delay to Applicants in having to protect the additional subject matter recited by the Group II and Group III claims by filing a divisional application(s).

The Examiner has not set forth why there would be a serious burden if restriction is required.

Even if the Examiner considers claims 10-15 to be a separate invention(s) from claims 1-9 and 16-19, the Applicants respectfully request the Examiner to consider claims 10-12 (Group II) and claims 13-15 (Group III) together.

III. Conclusion

Applicants submit all of the pending claims should be examined in the subject application.

In view of the foregoing amendments, arguments and remarks, all claims are deemed to be allowable and this application is believed to be in condition for allowance.

If any further fees are required in connection with the filing of this Amendment, please charge the same to our deposit account number 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
